Kelly Garry, City Attorney	Charlie Cassens, City Manager

LAKE HAVASU CITY AMENDMENTS TO THE 2012 EDITION OF THE INTERNATIONAL PLUMBING CODE

May 12, 2015

Section 106.5.4 Amend to delete last sentence

Section 106.6.2 Amend entire section to read:

The fees for plumbing work shall be paid as required, in accordance with the schedule as established by the applicable governing authority.

Section 106.6.3 (2) Amend to insert 80 into brackets

Section 106.6.3 (3) Amend to insert 80 into brackets

Section 108.4 Amend first sentence to read:

Persons who shall violate a provision of this code or shall fail to comply with any requirements thereof or who shall erect, install, alter or repair plumbing work in violation of the approved construction documents or directive of the code official, or of a permit or certificate issued under the provisions of this code, shall be subject to penalties as prescribed by law.

Section 108.5 Amend last sentence to read:

Any person who shall continue any work in or about the structure after having been served with a stop work order, except such work as that person is directed to perform to remove a violation or unsafe condition, shall be subject to penalties as prescribed by law.

Section 303.4 Amend first sentence to read:

All plumbing products and materials shall be listed by a nationally recognized, third-party certification agency as complying with the referenced standards.

Section 305.4.1 Amend to insert 12 into brackets

Section 305.8 Amend to add new section 305.10 to read:

Metallic pipe shall be specifically prohibited in all installations when direct soil contact is encountered unless it is sleeved or embedded in clean sand.

Section 312.6

Amend entire section to read:

Building sewers shall be tested by plugging the end of the building sewer at its points of connection with the public sewer or private sewage disposal system and completely filling the building sewer with water from the lowest to the highest point thereof.

Section 410.3 Amend entire section to read:

Drinking fountains are required on each floor of all Group A occupancies and Group E occupancies used for elementary and secondary schools. Where drinking or dining establishments provide drinking water in a container free of charge, drinking fountains shall not be required. Requirements for drinking fountains in other occupancies listed in Table 403.1 are optional.

Section 604.4 Amend entire section to read:

The plumbing fixtures and devices specified below shall be installed in every new building or addition to an existing building for which a building permit is required and when a replacement fixture or device is required in any building.

- A. Faucets-General. All lavatory, kitchen and bar sink faucets shall be designed, manufactured, installed or equipped with a flow control device or aerator which will not allow a water flow rate in excess of 2.75 gallons per minute.
- B. Faucets-Public Restrooms. In addition to the general requirements set forth in subsection A of this section, lavatory faucets located in restrooms intended for use by the general public shall be of the metering or self-closing type.
- C. Showerheads. Showerheads, except where provided for safety reasons, shall be designed, manufactured and installed with a flow limitation device which will not allow a water flow in excess of 2.75 gallons per minute. The flow limitation device must be a permanent and integral part of the showerhead and must not be removable to allow flow rates in excess of 2.75 gallons per minute.
- D. Urinals. Urinals shall be designed, manufactured and installed so the maximum flush will not exceed 1.6 gallons of water. Adjustable type flushometer valves may be used provided they are adjusted so the maximum flush will not exceed 1.6 gallons of water.
- E. Water Closets. Water closets shall be designed, manufactured and installed so the maximum flush will not exceed 1.6 gallons of water.

Table 604.4 Amend to delete entire table:

Section 606.2 (2) Amend to delete entire sentence:

Section 607.2 Amend to delete entire section:

Section 708.3.3

Amend entire section to read:

Clean-outs shall be installed at each change of direction greater than 135 degrees in the building sewer, building drain and horizontal waste or soil lines.

Section 903.1

Amend to insert 6 into bracket:
